Foreign Language Placement Evaluation

What is the Foreign Language Placement Evaluation (FLPE)? The FLPE is a tool to assess students’ language skills, so they begin language study at the appropriate college level. It takes approximately 30 minutes. Students will not receive course credit if they register in a course BELOW their placement score. If students feel that the test did not accurately reflect their knowledge, they must meet with a language advisor to determine appropriate placement. Scores are valid for one year after a student takes the exam.

Do you have more questions? Visit go.uncg.edu/flpe for more information about language placement here at UNCG!

Look for your major below to determine if you need to take a FLPE here at SOAR:

"WE CAN'T OVERESTIMATE THE VALUE OF A CLASSICS MAJOR." Check this out: according to the Association of American Medical Colleges, students who major or double-major in Classics have a better success rate getting into medical school than do students who concentrate solely in biology, microbiology, and other branches of science. Crazy, huh? Furthermore, according to Harvard Magazine, Classics majors (and math majors) have the highest success rates of any majors in law school. [...] Classics majors consistently have some of the highest scores on GREs of all undergraduates."
