School of Health and Human Sciences
The Need to take ownership.
The Need to take ownership!

- Know your ID#, pin, and advising code!
- Meet with your advisor!
- Register for Fall courses/plan for Spring
- Academic calendar - add important dates NOW!!
- Sign up for tutoring!
- Be proactive!
NURSE

Identify the important and act with the sense of urgency

“YOU MUST TAKE ACTION NOW THAT WILL MOVE YOU TOWARDS YOUR GOALS. DEVELOP A SENSE OF URGENCY IN YOUR LIFE.”

H. JACKSON BROWN, JR.

Do. Or do not. There is no try.

WHAT’S YOUR BACKUP PLAN IF YOU DON’T GET INTO NURSING (NUR)?

BACKUP PLAN OPTIONS?

RESEARCH other NURSING degree programs offered at other 4 year institutions, apply, and see if you get admitted.

ASSESS RN TO BSN NURSING degree programs.

With an RN degree already completed, you’re guaranteed admission into UNCG’s NURSING program with only 2 years remaining to earn the BSN degree.

EXPLORE alternative majors at UNCG

You can still take course prerequisites (Ex. BIO, NTR, HDF) with a actual major declared in something else beyond NUR. NUR doesn’t care what your major is at the time you submit your NUR application for consideration. What is it about NUR that attracts you? Helping others? Working with children? Working with the elderly? Working in a hospital? REFLECT, REFLECT, REFLECT!
Be mindful that though the common science prerequisites (BIO & CHE) still apply, many may have additional prerequisites beyond those required here at UNCG.

Everyone has different application deadlines, so do your research and plan ahead.

Apply to multiple programs and see what opportunities arise.

Know that it is competitive everywhere you go for NURSING.
With an RN degree ALREADY COMPLETED from a community college, one is GUARANTEED INTO UNCG’S BSN program with only 2 years left to complete the BSN degree.

All students who haven’t already earned an RN degree from a community college and want to pursue NUR at UNCG are competing for the 100 spaces NUR fills once each year. This includes...

New freshmen
New transfers
Those who changed majors and now want to do NUR.
Students who already have a 4-year degree and now want to do NUR.
Students who applied once, didn’t get admitted, and are applying again.
With majors in Human Development and Family Studies, Social Work, Therapeutic Recreation, you can work in pregnancy care centers, foster care programs, crisis intervention centers, residential treatment facilities that serve children/elderly, be a licensed recreation therapist (or prepare to become an occupational therapist), etc.

With majors in Nutrition, Kinesiology, you can work as a fitness consultant, a nutrition consultant, athletic trainer, assist cardiac rehab patients using physical fitness as a form or rehab, be a registered dietitian, prepare to become a physical therapist, etc.

With majors in Public Health Education, Speech Pathology and Audiology, you can become a Community Health Education Specialist, work in health care administration, research and implement programs to prevent the spread of diseases and/or improve overall health and wellness, serve those with speech or hearing impairments as an audiologist or pathologist, etc.
Purpose Driven – Life Design Classes in HHS (Electives to consider)

REFLECT, REFLECT, REFLECT, REFLECT, REFLECT, REFLECT, REFLECT!

HHS 125, 135, 250, 275
