Bryan Undergraduate Student Services
Office Hours: Monday through Friday 8am-5pm

Bryan Undergraduate Student Services values partnering with students and constituents to promote academic success. We collaborate with faculty, staff, and the community to provide exceptional academic services that support student engagement in quality education, developing marketable skills, and ethical decision-making.

Our mission is to provide academic services to Bryan School students throughout their educational journeys while connecting students to university information and opportunities that enhance their UNCG experience.

Bryan Academic Advising
Advising is a partnership between advisor and student. The Bryan Undergraduate Student Services Office prides ourselves on giving students one-to-one attention and we encourage all our students to begin to form a relationship with their advisor as early as the first semester. Advisors will assist the student in any way possible, but it is up to the student to ask questions, make decisions, and take responsibility for following through with any advice provided.

As part of a successful academic advising relationship students will:
- Understand the value the advising partnership.
- Make use of communication and information provided.
- Register in a timely manner for classes that meet degree requirements.
- Develop an understanding of policies and procedures as outlined on the Bryan Undergraduate Student Services website and in the University Catalog.
- Develop knowledge of University resources.
- Identify academic, personal, and career goals.
- Understand the value of activities that enhance the educational experience.

Advising Appointments
Bryan Undergraduate Student Services Advisors are available throughout the year to assist with anything you need. Send an email to your advisor or call the office whenever necessary, however it is often best to go ahead and schedule an appointment. Students must schedule an appointment with their advisor using Starfish. We offer phone appointments for those who cannot easily come to campus during regular advising hours. Each student is required to meet with his or her academic advisor at least once each semester to receive their advising code. Students will not be able to register for classes without an advising code. We also typically have walk-in hours each week for urgent concerns. Please note that we do not give out advising codes or create graduation plans during walk-in hours.
Preparing for Your Advising Appointment
Students are encouraged to show up a few minutes early for their advising appointment. Students arriving 5 minutes late or more will be asked to reschedule the appointment. Plan ahead for your appointment by making a list of any questions you have. For registration advising appointments, you will also want to review your current Degree Works evaluation, review the class schedule, put together a list of classes you would like to take, and know what your current grades are in each class you are taking.

Student/Advisor Expectations
