# LETTER FROM THE CHANCELLOR

Hello New Spartans,

Welcome to UNCG! We are so glad you have found your way here. This is a special place and it won't take long for you to notice the sense of pride, energy, and excitement on campus and across our community.

We hope your SOAR experience over the summer was fulfilling and we are thrilled to see you back on campus ready for your first year. Our academic advisors have been diligently working on your class schedules, our housing and residence life staff are excited to see the buildings come back to life, and our faculty and staff are ready to help you find your college groove on campus, in the classroom, and even online.

I encourage you to take advantage of the people, places, and programs available to you and know that we are always here to help. With that in mind, as you start your new journey here at the G, I hope you'll take these recommendations to heart:

**Take Giant Steps.** We've taken "giant steps" as a campus. You have already taken giant steps to pursue a college education, and now it's time to take bigger steps together. This takes courage, commitment, and planning. Use this success guide to learn more about the opportunities here and plan out your first year. I challenge you to think BIG when it comes to your goals and dreams. Don't just drift through your time here; give it your all. You can do this!

**Know What You Don't Know.** Part of becoming an educated person is acknowledging what you don't know and finding ways to learn, build your skills, and fill in the gaps. The YFY Success Series is a great way to help you figure this out. Engage in programs that will help you be successful, surround yourself with people who have your best interests at heart, and take an interest in your own personal and professional development.

**Try New Things.** You never know when you might discover a new passion or talent. College is about exploring your interests and getting involved on campus. It's about learning how to engage in dialogue about challenging topics in a reasoned way. It's about becoming a lifelong learner. It's about finding your passion.

**Embrace Change.** It's inevitable! You have already faced challenges over the past few years and have learned that life can and will throw you curveballs. Through it all, you kept your focus and pushed ahead; you adjusted and moved forward. We will continue to adapt and embrace the challenges together, and we are here to support you along the way. That's what the Spartan Spirit is all about.

I wish you the best of luck as you set out on this new journey – this is YOUR time.

Go Spartans!

Franklin D. Gilliam, Jr.  
Chancellor

## WELCOME MESSAGE FROM YFY SUCCESS SERIES WINNER 2023-2024

Hello First Year Students! My name is Jessica McEachin, and I am currently a Junior here at UNC Greensboro. Coming in as a new student, especially a new transfer student, can be rather intimidating. Going straight to my room after class was an option, but I knew I needed to make connections. The “Your First Year” Success Series reached out to invite me to different events that they hosted, and I did not hesitate to attend. Not only was this opportunity to meet others in my shoes, but I was able to learn and develop professionally and personally!

I would encourage you all to attend all the events offered, but some that stood out to me the most would have to be the “Test Prep” and “Demos & Donuts: LinkedIn & Networking” events. By taking exams, it can be easy to freeze up and forget some of the things you studied. Luckily, the Test Prep event provided different study strategies involving passive review, active studying, and self-testing. As with the LinkedIn and Networking event, I was provided with a “professional Facebook” website. I was shown how to expand my network, stay connected, and how to respond after a networking opportunity with a follow-up email.

These were just a few of the events that helped me, but the “Career Fair Prep” helped me the most. The career fair is where all students can gather to meet multiple employees to secure a job, internship, or a way to gain connections. With the preparation for the event, I knew what to wear, and which questions to focus on asking, and I was able to make connections on LinkedIn! I also gained professional development by reaching out to many companies and exploring opportunities that I did not know were available. Attending the career fair is highly recommended.

UNC Greensboro is a great campus that has many resources to help you create friendships and grow professionally. The advice I would like to give you all is do not be afraid to introduce yourself. Someone here is looking for a friend just like you so why not take the first step? Do not be too hard on yourself, your friend/ friend group will eventually come. Don't be afraid to go to different events and learn about different organizations and clubs. Using your planner is also recommended. The planner is how I kept track of all the YFY events I wanted to attend. Your journey starts now, I know you will make the most out of it!

Best,

Jessica McEachin (She/Her)

Major: Information Systems and Supply Chain Management  
Concentration in Cyber Security

# RUNNING INTO AN ERROR MESSAGE WHILE REGISTERING WITH SCHEDULE HERO?

Check out the list below for common issues and solutions!

ERROR	WHY	FIX
<b>Class Restriction</b>	You try to register for a course that is restricted to a specific class standing (Sophomore, Junior, etc.) that you do not have. For example, if you are a freshman, you will receive this error if you try to register for a course that requires sophomore standing or higher.	Check your advising sheet to verify courses you are eligible to take. If you think you have satisfied the class standing restriction for the course, please contact your Advisor.
<b>Corequisite Error</b>	You are trying to register for a course that has a required additional component, such as a recitation ("R" section) or a lab ("L" section).	You will need to register for both CRNs at the same time. Enter the first CRN into one block, enter the second CRN into another block, then click on "Submit Changes."
<b>Field of Study Restriction</b>	You register for a course that is restricted to certain majors. This can include courses restricted to students that are fully admitted to their major.	Check your advising sheet to verify courses you are eligible to take. If you received this error from an online section, you will need to find a "Greensboro - Main" (face to face) section to register for that is not restricted to online program students only.
<b>Prerequisite and Test Score Error</b>	You register for a course that has a prerequisite that you have not taken or passed successfully. Note: There may also be more than one prerequisite required for the course.	If you have not met the prerequisite, you must search for a different course. If you think you have satisfied the prerequisite for the course, please contact your Advisor
<b>Program Restriction</b>	You are trying to register for courses that are restricted to online-only students.	You will need to find a "Greensboro - Main" campus (face to face) course to register for that is not restricted to online program students only
<b>Reserve Closed</b>	There are no seats remaining for main-campus students.	You will need to register for another section of the course or refer to your advising sheet for an alternative course to register for.
<b>Waitlist</b>	You are attempting to add a course that is closed but has a waitlist.	You can add yourself to the waitlist by clicking on the "Actions" box and selecting "Waitlist through UNCGenie." There is a limited number of spots available on the waitlist, so you may see a "waitlist closed" error. If the waitlist is closed, you cannot add yourself to it.

If possible, do your best to have a balanced schedule that allows time in between classes to take a break or review materials before your next class. Also, try not to have too many classes on the same day. Balancing throughout the week allows you to stay more in control of your day-to-day tasks and assignments that need to be completed.

“

Don't let one grade define you! I've always taken grades extremely seriously throughout my academic career, and entering college made the pressure of getting good grades even more stressful. Just remember that college isn't easy, and one bad grade isn't going to determine your entire UNCG experience. You have plenty of opportunities to grow and learn, so don't think that a single grade is a measure of your worth, because it's not!

## 23 MY CAREER ROADMAP

## 26 MY GOALS

## 27 MY SCHEDULE

# MY CAREER ROADMAP

Your future starts here! The UNCG Career Roadmap acts as your guide in identifying your professional goals and developing the skills to get you where you want to go. Walk through these milestones and complete the quick activities to explore your next steps!

## **1 ASSESS: YOU ARE HERE**

A roadmap offers many routes, but it's up to you to decide where you want to go. The first step in your career journey is evaluating and assessing your current interests, values, and skills so you know where you are now and what you need to arrive at your ultimate destination.

## **2 EXPLORE: CHOOSE YOUR DESTINATION**

Once you've completed your assessment, you're ready to choose the career path that is just right for you. Discover how you can match your current interests and knowledge with a variety of different career opportunities, ultimately targeting the one that fits your needs best.

## **3 PROMOTE: DEVELOP YOUR BRAND**

You know your values and skills. Now it's time to learn how to talk about who you are personally and professionally to promote a compelling brand that's all about you.

## **4 CONNECT: BUILD YOUR PROFESSIONAL NETWORK**

Your Career Roadmap doesn't end with you. Learn how to map out key connections by interests, majors, shared causes, and industries as well as strategies to remain in touch now and as you grow your network beyond graduation.

## **5 ENGAGE: ENHANCE YOUR EXPERTISE**

You don't have to wait until after you graduate to gain experience that makes yourself stand out. Discover how opportunities such as internships, community service, and campus leadership can enhance your skill sets.

## **6 ARRIVAL: YOUR CAREER GOAL AND BEYOND**

You're almost there! Create and implement the final strategies to secure your first job, gain admission to graduate school, make a career change...and start your future.

# MY CAREER ROADMAP

Milestones 1 and 2 of the roadmap encourage you to identify your skills. You may have developed these skills through past work experience, classes, volunteer opportunities, or participation in athletics or clubs. Knowing what you're good at can help you connect to a major or career! We encourage you to check out the CPD website for a variety of inventories that can help unpack your interests, skills, values, and more.

As you complete these inventories, reflect on the following:  
What did you learn about yourself? Are you surprised by the results?  
How can you use these inventories to make decisions about your major and career?

A large, empty rectangular box with a white border and a light gray background, designed for handwritten notes. The box has a slanted top-left corner and a slanted bottom-right corner. It contains several horizontal lines for writing.

Once you know your skills and values, milestone 3 focuses on connecting them and helping you create a personal brand. Your brand will ultimately include your resume, cover letter, interview skills, storytelling, and telling others about who you are. The questions below will provide you a starting point for creating your brand.

What do I like to do? What am I good at? What is important to me? Is there a problem I want to help solve? Is there a specific group of people who I feel compelled to help?
